MAPRO What's New (Q1 2025)
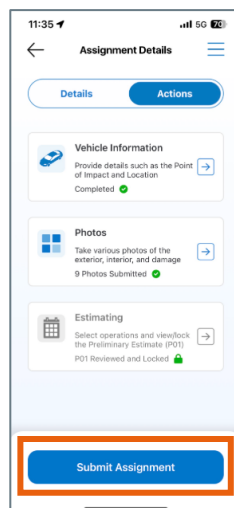

Introduction   Mobile appraiser Pro (MAPRO) allows Insurance company users to access both field and drive-in assignments on their mobile device. The enhanced modular design is developed to mirror standard vehicle documentation processes. Users are guided through a seamless process to capture vehicle information (i.e. VIN, Odometer, License Plate, POI & Vehicle Location), vehicle damage photos & can view/lock a Preliminary Estimate (if enabled). Mobile appraiser Pro is available for both Apple and Android devices." If minimal required information is captured, the assignment can be submitted without going through everything.

Assignment Details   The **Actions** tab lists the **Vehicle Information**, **Photos** and **Estimating** (if enabled) modules. This will help the user know all the actions that need to be performed. These have to be completed in order. A status will be shown based on the user's interaction with the Preliminary Estimate.

Select **Submit Assignment** when complete.

Odometer

The user will upload an image of the **Odometer** reading. Select **Next** when upload is complete.

License Plate

The user will upload an image of the **License Plate**. When complete, select **Next**.
