# CCC® UpdatePlus Settings: Enable Web View
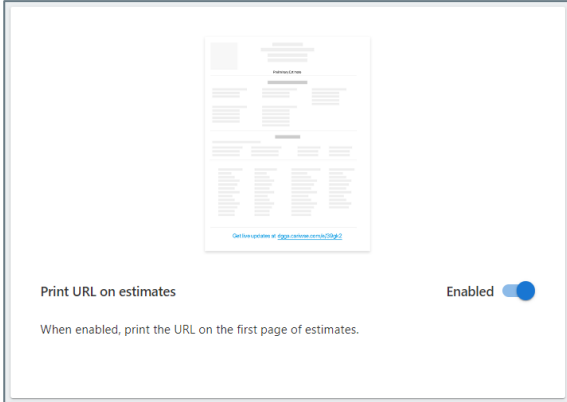

Enable UpdatePlus Web View

Web View allows you to share repair data with your customers in real time using CCC® Carwise. To enable Consumer View access to estimates, use the following steps:

Step	Action
1	Click **My Account** > **Configure**.
2	Click on **Settings** and select **Update Plus**. UpdatePlus Manage settings for UpdatePlus consumer messaging features.
3	Select the **WEB VIEW** tab. MESSAGING WEB VIEW
4	On the left side, select whether you want to **Share estimate details with consumers for**... all estimates or for locked estimates only. All is recommended. Share estimate details with consumers for... ○ All estimates (recommended) ○ Locked estimates only

Step	Action
Enable UpdatePlus Web View, continued	*(row label in left margin)*

Step	Action
5	On the right side, you can choose to **Print the URL on estimates** that are shared with your consumers so that they can open the estimate in Web View. It defaults to enabled.
6	When finished making your selections, click **SAVE**.
