

On-Hand Supplier Integration

Introduction

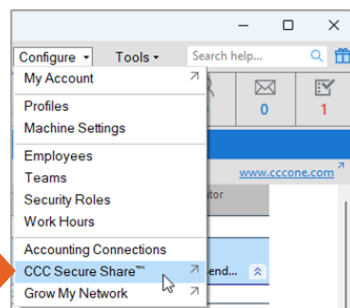

This job aid explains how shops can add vendors to CCC ONE using either **Secure Share** or **Machine Settings**.

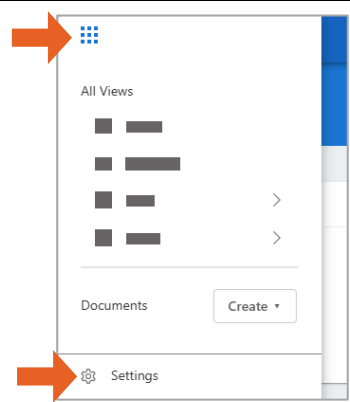

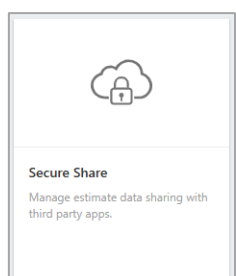

Secure Share

Select **Enable Secure Share** in cccone.com to configure vendors for your shop (Invoice Only).

Note: To access Secure Share using CCC ONE Desktop, select **Configure**, then **CCC Secure Share**.

Follow the steps below to add a vendor in cccone.com:

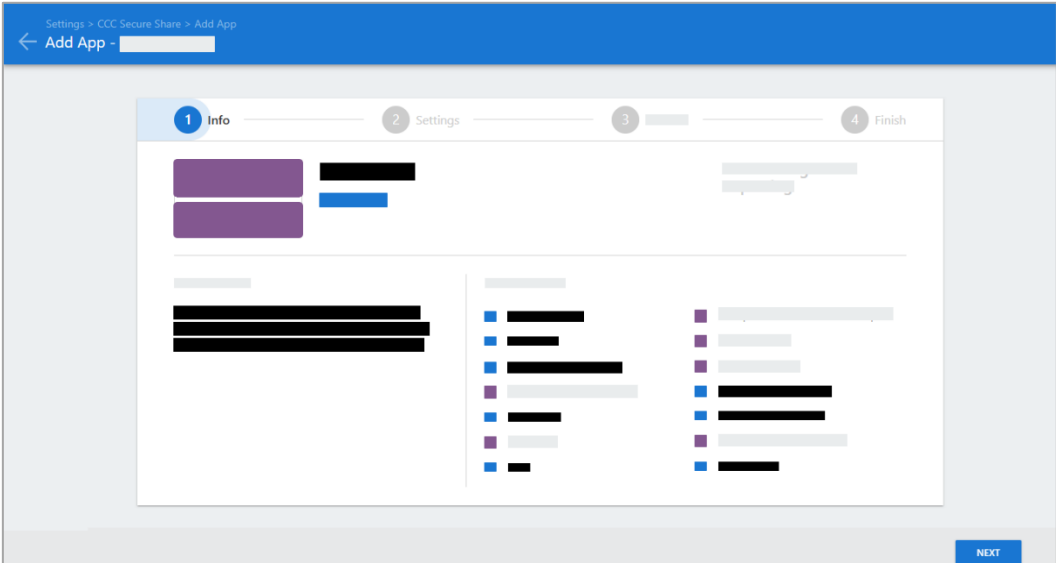

Step	Action
1	Login to cccone.com , select Menu , then Settings . 
2	Select the Secure Share tile.

Machine Settings

Follow the steps below to configure a vendor using your Machine Settings in CCC ONE desktop:

Step	Action
1	Select > Configure > Machine Settings . 
2	Select Data Interface . 
3	Select Add . 
4	Then select a Supplier , then select OK . 
5	Read the End User License Agreement carefully. If you agree, select the I Agree checkbox, then OK to continue.
6	Select the ellipsis icon.
7	Choose a folder to save the directory or create a new one, then select OK . 
8	The vendor is now added. To remove select the vendor, then select the Remove button.
