

## CCC® Estimate Review Guidance Report

### Overview

The Estimate Review Guidance Report enables insurance carriers to merge file review data, reinspection data, and Estimate Review images into one all-inclusive report that can be used for training purposes.

**Note:** The user must have the appropriate permissions to use the Guidance Report functionality. The upload image functionality is only available for reviews completed in the CCC® Portal.

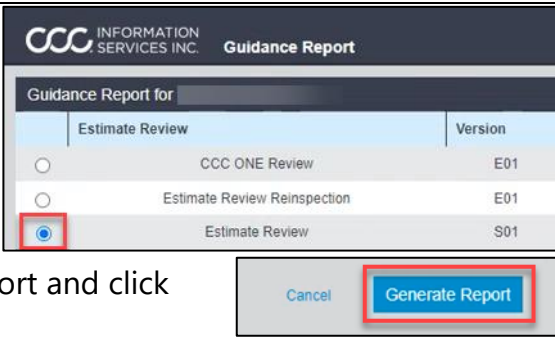

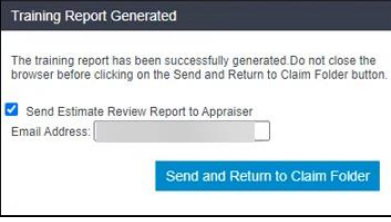

### Estimate Review – Upload Images

Step	Action
1	Open the claim folder in the CCC® Portal and select <b>Estimate Review</b> from the left panel.
2	Select the lines to review and the desired review action.
<p><b>Optional:</b> In the Reinspection Details screen, click <b>Upload Images</b> to select and add images to the Estimate Lines.</p> <div data-bbox="425 970 998 1274" data-label="Image">  </div> <p>The selected images will display as thumbnails in a pop-up window.</p> <p>Review the photos to ensure they are correct. Delete them from this screen using the trash can icon as needed. Photos cannot be deleted once submitted.</p> <p>Click <b>Submit</b> to upload the photos.</p> <p><b>Note:</b> 4 images may be added per line, and 20 images may be added in total for the Estimate Review. These images will be stored in the claim folder and included in the Guidance Report. The images will NOT be included in the standard Estimate Review Report.</p>	
3	Follow your process to complete the Estimate Review.
