

# CCC® Mobile: Quick Valuation – Valuation Submission

## Overview

This job aid explains how vehicle option modifications submitted via the Quick Valuation mobile application are displayed within the PPV Valuation Request in the CCC® Portal.

## PPV Valuation Submission > Options Tab

To view vehicle options modified by mobile Quick Valuation submission: Open the **Options** tab within the PPV Valuation Request in the CCC Portal.

An asterisk \* denotes that the corresponding option was modified by mobile submission. When hovering over an option with an asterisk displayed, the following message will display: Modified by mobile submission. This is shown in the screenshot below.

### Example shown below:

Memory Package was added via Quick Valuation mobile submission.

The screenshot displays the 'Valuation Request' interface with the 'Options' tab selected. Under 'Vehicle Options', the 'Transmission Type' is set to 'Automatic Transmission'. Below this, there are sub-tabs: 'Transmission', 'Power', 'Decor/Convenience', 'Seating', 'Radio', 'Wheels', and 'Roof'. The 'Decor/Convenience' sub-tab is active, showing a list of options with checkboxes. The 'Memory Package' option is checked and marked with an asterisk (\*). A red box highlights this option, and a tooltip above it states 'Modified by mobile submission'. Other options include 'Air Conditioning - inst', 'Cruise Control - inst', 'Overhead Console - inst', 'Dual Screen Entertainment', 'Home Link - inst', 'Climate Control - inst', 'Rear Wiper - inst', 'Keyless Entry - inst', and 'Remote Starter'.
